

COLOURFIELD ... EXPLORE COLOUR THROUGH TEXTURE & TONE

This project is a straight forward colour exploration. You may shoot anything BUT you must shoot within 1 colour tonal range. i.e. all purples, lilacs, violets, dark pinks as shown above...

Use varied points of view, interesting angles, close up shots, etc and use aperture intelligently!

You must shoot in Colour. (You may use colour film or a Digital SLR or a digital compact camera.)
You may print the images glossy or matte or from a home printer if you are able to get excellent photo quality.

You may enlarge your images to A5 but jumbo size is also perfectly acceptable. You may crop your prints square if you like...

6-12 prints due mounted (horizontal, vertical or in a block format)

DUE: 22 March
