

## NARRATIVE FROM LIFE

*Narrative from life* can be serious, dramatic, heartfelt, slapstick, stupid, hilarious, fantastical, quirky, beautiful, realistic, every-day, mundane...

You are required to shoot a narrative whereby you re-create a scene from life or your favourite movie. It can be a true representation or an "inspired by" version. Stay within your means – choose a scene that does not require huge or expensive props. Find a scene that inspires you, even if it is relatively simple.

Have fun with this project – be creative, explore, watch movies for inspiration, include motion if you like – shoot as if you are telling a story via freeze frames...

**5 – 10 images due: 20 March**
